# Evidence for Enhancement

## Why is this a compelling theme now?

- Exponential increase in the availability and visibility of data and evidence
- Universities changing practice and policy at all levels through use of new data systems
- This 'data revolution' is affecting everyone and the system as a whole
- Aligns with Government priorities and developments elsewhere

## Vision for Evidence for Enhancement

- Help Scottish sector enhance student experience by improving how it uses data and evidence
- Broad view of student experience and attention to student engagement across all activity
- Demonstrate the impact of the Theme for our students and other key stakeholders

# Concluding thoughts... Evidencing the impact of and on student engagement

- Like Theme as a whole, not easy to evaluate. Indicators are positive and we are looking at longer-term approaches to explore this (led by Prof. Liz Thomas)
- But... Sparqs meeting of new sabbatical officers – very positive response. An example of positive indicators.
- Taking this as part of our focus for year three – How do we measure and evidence wider impact of and on student engagement?
